

THE COMPLETE PACKAGING SOLUTION COMPANY

EPE FOAM	LD BAG	PP FLUTE BOARD
BOPP TAPE	AIR BUBBLE FILM ROLL	PE STRETCH FILM
BUBBLE GUARD	XLPE FOAM	PP SHEET FOR STATIONERY

EPE FOAM

EPE Foam Applications

- | | |
|-----------------------|--------------------|
| Ceramic products | Packaging |
| Electronic equipments | Fabrication |
| Handicrafts | Mandap decoration |
| Insulation | Furniture industry |
| Automobiles | Carpet & mats |
| Construction | Sports |
| Jewelry packing | All type of bags |
| Toys & novelties | Cold storage |
| Mattress | Bus seat |

EPE Foam Product Features:

- Resilience
- Cushioning
- Shock Absorption
- Flexibility
- Abrasion
- Resistance
- Light Weight
- Soft And Tough
- Ease Of Fabrication/Lay
- Water/Moisture Resistant
- Chemically Inert
- Oil Resistant
- Non Toxic
- Hygienic & Fungal Resistant
- Thermal Insulation
- Sound/Vibration Dampener
- Wider Temperature Range
- CFC Free

AIR BUBBLE FILM ROLL

Air Bubble Film Applications

Used as protective packaging

Used by electronic and automobile industries

Majorly used in pouch forms by electronic, automobiles, furnitures and other industries to –protect fragile

Climatic hazards (moisture/dust)

Easy to carry, easy to dispense, easy to store, easy to display

Flexible & light weight packaging, easy for packing and un packing

Air Bubble Film Product Features:

- Transparent, hygienic, dust free & non toxic
- Can be easily wrapped around the product for cushioning
- Resistant to moisture
- Provides excellent surface protection against accidental impact & scratches
- Can be supplied in roll form or in customized fabricated forms such as pouches, cut pieces, wraparounds etc.
- Various laminates available such as foam, film (printed or unprinted)
- Environment friendly product. 100% recyclable

PE STRETCH FILM

Machine Roll :

- Superior load retention to reduce shifting and movement. Excellent puncture resistance with better protection and clearer film. Suitable for conventional and power pre stretch machine wrapping of palletized goods

Hand Roll :

- Lightweight and easy to use. Manual wrapping of palletized wood, bricks, paper and other industry products

BUBBLE GAURD

Available Product Range :

- Thickness in mm : 2mm - 5mm
- GSM : 125 GSM to 1500 GSM
- Width & Length : As per your requirement

Available Product Colors :

White

Blue

Grey

Yellow

Black

PP FLUTE BOARD

PP Flute Board Applications Area

Advertising : Signage, POP, Hoarding, Display, Boards, Exhibition Stall.

Packaging : Master Cartons, Packaging for Fruits, Vegetables, Glass, Delicate Items, Chinaware, Lab Ware, Auto Parts, Electrics & Electronics, Pharmaceuticals etc.

Construction : Porta Cabins, Doors, Floorings, False Ceilings, Protective Liner for Wardrobe & Furniture Paneling

Other : Lab Furniture, Cooling Towers, Pellets, Roofing for Green house, Novelties, Boards for Rural/Propaganda Vans.

PP Flute Board Features:

- High Strength Rigidity
- Chemically Inert
- Attractive Colours
- Excellent puncture Resistant
- Excellent Compression Strength
- Easily Fabricated As Per Customer Requirement
- Weather Resistant
- Non Toxic
- WASHABLE, Lightweight & Reusable

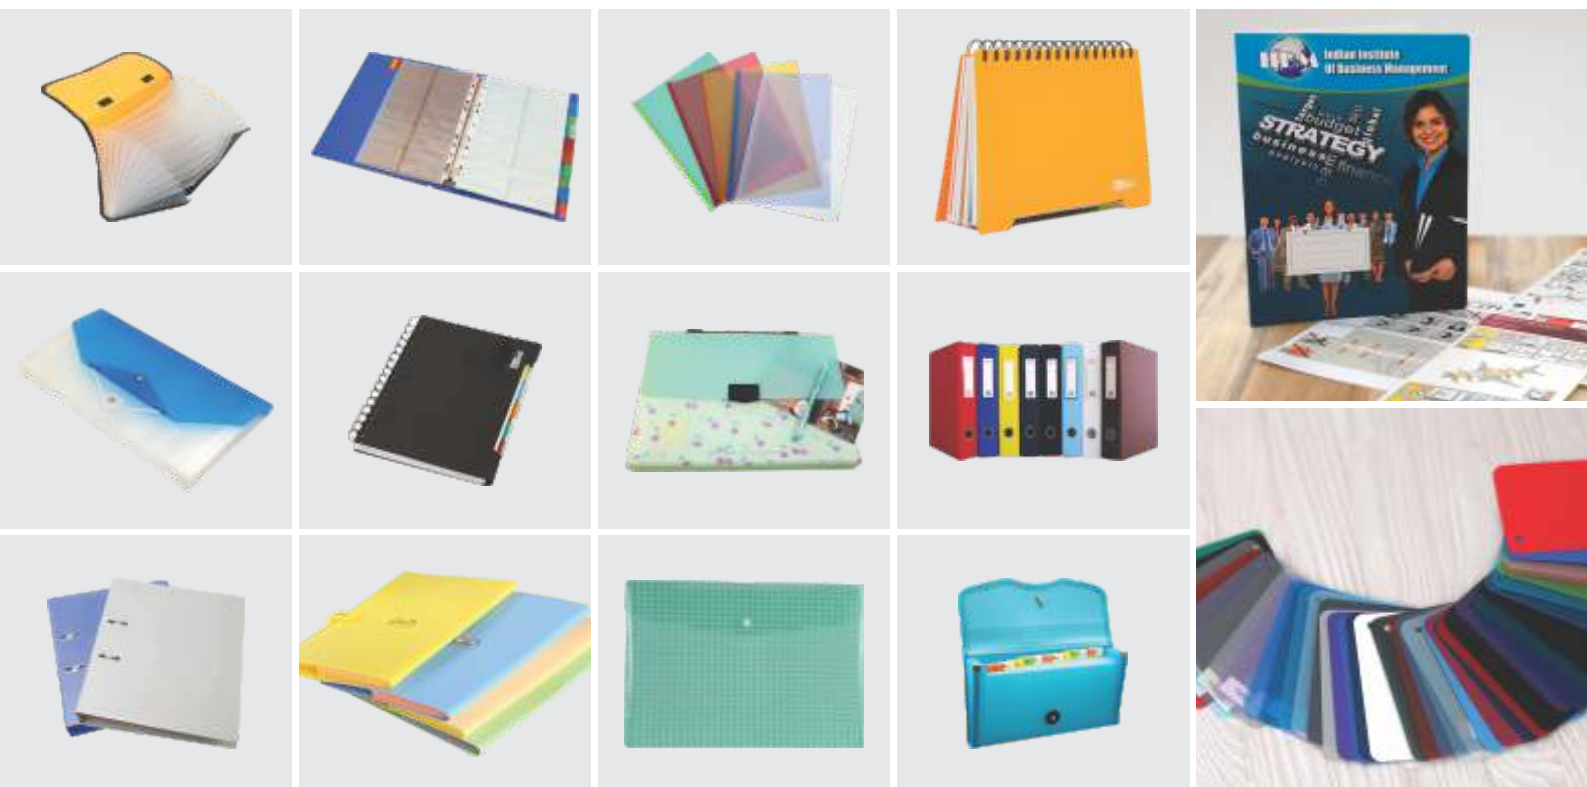

PP SHEET FOR STATIONERY

PP Sheets For Packaging Features:

- Weather Resistant
- UV Stabilized
- Easy to Cut
- Excellent Finish
- Density of 0.94kg/cc.
- Low Moisture Absorption
- Works As A Best Hinge
- Chemical Resistant
- High Moisture & Dirt Resistance
- Moisture Absorption 0.008%

PP Sheets For Stationery Features:

- Very light & easy to install
- Appropriate for applications upto 180°F (82°C)
- Resists most acids, alkalis & solvents
- Stability in dimensions with high impact strength
- Right combination of rigidity, flexibility & impact resistance
- High tensile strength
